EVENT RECAPS

BuildSF Tour of Mission Rock

The BuildSF community had an exciting opportunity to tour Mission Rock, one of San Francisco's most transformative urban developments. Once 28 acres of asphalt and a historic pier, this area has been reimagined into a vibrant, mixed-use neighborhood and community hub thanks to more than 16 years of planning and public input.

Led by a unique public-private partnership between the San Francisco Giants, Tishman Speyer, and the Port of San Francisco, Mission Rock is a model of smart urban growth.

The tour offered attendees a firsthand look at the project's design, impact, and vision for the future.
