SUMMARY

Data Analyst pursuing an M.S. in Business Analytics at UC Irvine with experience in SQL, Python, Tableau, Power BI, and machine learning. Skilled in transforming complex datasets into actionable business insights through analytics, experimentation, segmentation, and predictive modeling. Interested in product and gameplay analytics, customer behavior, and data-driven decision making.

EDUCATION & CERTIFICATIONS

University of California, Irvine, Paul Merage School of Business

08/2026

Master of Science in Business Analytics

Irvine, CA

Coursework: Machine Learning, Data Science Statistics, Deep Learning, Data Management, Agentic AI

University of San Francisco

08/2025

Bachelor of Science in Business Analytics

San Francisco, CA

Certifications: Google Analytics | DataCamp: Intermediate Python, Intermediate R, SQL

EXPERIENCE

Blue Shield of California – UCI MSBA Client Project

01/2026 – 06/2026

Competitive Intelligence Analyst

Long Beach, CA

- Analyzed 5+ years of unstructured data including earnings call transcripts, newsletters, and web scraped articles to cut down the Intelligence collection process by 10x.
- Ran weekly check-ins and routinely presented actionable insights to the competitive intelligence team over a series of 3 presentations.
- Built a three-layer RAG architecture that translated data into consumer ready insights and dashboards

San Francisco Chamber of Commerce

02/2025 – 07/2025

Marketing Analyst Intern

San Francisco, CA

- Ran A/B tests on email campaigns using Constant Contact heatmaps, continuously refining content and sending strategy to lift click-through rates 15%
- Built targeted campaigns driving a 25% increase in event sign-ups by identifying high-performing audience segments through conversion data analysis

Seva Foundation - USF Client Project

01/2025 – 05/2025

Business Analyst, Project Lead

San Francisco, CA

- Led a 5-person cross-functional team to evaluate 50 years of program impact data and delivered strategic recommendations to executive leadership.
- Cleaned and transformed multi-district survey and hospital records in Snowflake SQL, then built Power BI dashboards showing longitudinal trends in surgeries, blindness prevalence, and program financials for non-technical stakeholders.

County of San Mateo

06/2023 – 08/2024

Fiscal Office Specialist

Redwood City, CA

- Audited and resolved 150+ backlog cases in CalSAWS and WOTS, keeping records compliant with state and federal requirements.
- Authored procedural documentation for debt validation and case referral workflows, shortening onboarding for new analysts.

PROJECTS

Twitch Analytics Platform

04/2026 – 06/2026

Python · ETL Pipeline · Next.js · PostgreSQL/Supabase · GitHub Actions | [Link](#)

- Built and deployed a full-stack platform that ingests Twitch API data across 10 game categories every 6 hours on automated GitHub Actions scheduling, with idempotent writes and row-level security keeping the dataset duplicate-free.
- Mined the platform's own snapshots for actionable findings, including a 20x spread in per-stream audience concentration across categories and a 213% prime-time viewership swing, after correcting for a mid-window change in tracking scope.

Player Purchase & Engagement Analysis (Valorant Dataset)

04/2026 – Present

Python · SQL · Tableau · RFM Analysis · Random Forest | [Link](#)

- Designed an RFM segmentation framework for 100,000+ players in SQL and Python, translating behavioral patterns into monetization and re-engagement recommendations.
- Built a spend propensity classifier (ROC-AUC 0.73) to flag at-risk players and target retention interventions.

ADDITIONAL INFORMATION

Analytics: Python, SQL (Snowflake, BigQuery, PostgreSQL, MySQL), R, Excel (Pivot Tables, Macros, VLOOKUP)

Visualization: Tableau, Power BI

Methods: A/B Testing, RFM Segmentation, Requirements Analysis, Process Improvement, ETL, Machine Learning

Tools: Git, GitHub Actions (CI/CD), Supabase, REST APIs (OAuth2), Figma, Canva

AI Tools: Claude(Code, skills, projects), Codex(ChatGPT), Gemini
